

ThermaCote®

Improve insulation and enhance your home in a single step without losing valuable space!

before

after

economical

Cheaper than traditional insulation

insulating

- > **Saves energy:** Improves heating and air conditioning efficiency
- > **Controls moisture:** protects from infiltration and prevents condensation
- > Reinforces **air-tightness**
- > **Limits** the appearance of **microcracks**

efficient

3 advantages in 1 for your home!

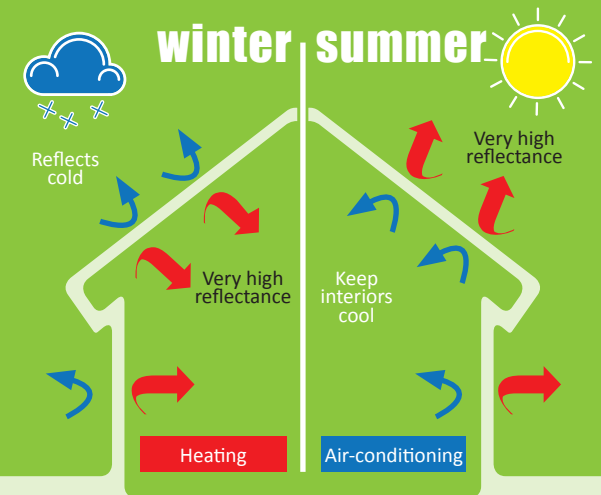

1. More **attractive**
2. More **comfortable** in both **summer** and **winter**
3. More energy-**efficient**

Protect and Enhance your assets with a **single application** of ThermaCote after cleaning.

With over 30 years of experience, ThermaCote® is a sustainable and energy-efficient solution for the thermal protection of buildings and industrial surfaces.

The high reflectance properties of **ThermaCote®** prevent heat from escaping in winter and keeps it out in summer.

An insulative coating that improves your overall thermal comfort:

Energy savings of up to **40%**

ThermaCote®
